Navigation & Real-Time Data

Conscious Measures
- Access to total impact for this user

Donate Now
- Enter item description and
  send pick-up notification

Track Today's Donation
- Location tracking, time and
  temperature monitoring of pick-ups

Charitable Giving Reports
- IRS-Friendly Record of Giving
- Exportable to spreadsheet/accounting software

Contributor Notification

- Item Description
- Condition of Item
- Weight (or relevant metric)
- Estimated Value
- Date/Time Ready for Pick-up
- Access to total impact for this user

Pick-Up Alert

- Text Message
- Email
- System Administration

Driver Dispatch

- Administrator Receives Notice
- View/plan best route
- Acknowledges Receipt of Notification
- Sends Message to Driver
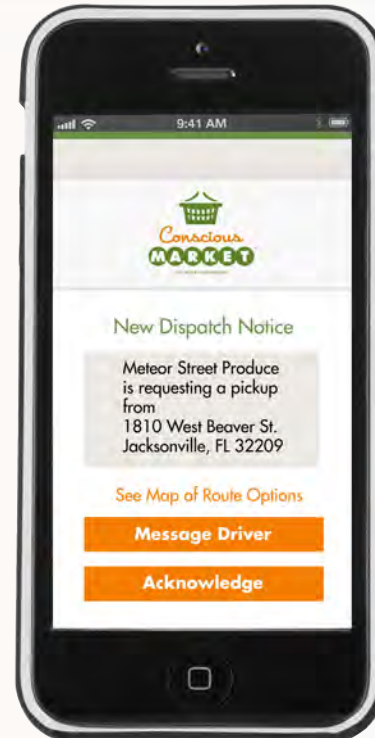

Driver Routing

- Ad Hoc Dispatch
- Add to Current Route
- Estimate Time

Contributor Authorization

- Authorization Assigned to Dispatch
- Driver Identification
- Onscreen Contributor Authorization
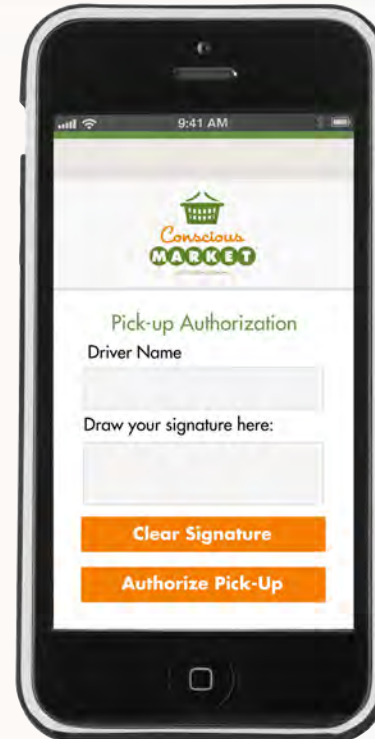

Drive Assigns Tag & Packs Items

- Tyga Box is a system of nesting boxes and dollies designed for safer and more efficient packing and transportation. Each box is "tagged" and can include insulated liners.

- TrackBlue beacon technology, built on the BlueTooth Smart international standard, sends data to the cloud from a credit-card size electronic tag so users can track movement, location and temperature.

Are items Ripe, Ready or Raw?

- Humans make usage determination
- Add to inventory based on condition
- Ripe – must be used immediately
- Ready – can be picked up or delivered
- Raw – added to Conscious Eats kitchen

Registered Users Receive Inventory Alert

- What it is
- How much of it is available
- How to get it
- Cost
- Reserve it or ignore alert

Registered Users View Available Inventory

- Select items available in inventory
- Date received
- Item Description
- Good Through...
- How it can be procured
- Cost
- Buy Now!

Buyer Acceptance from Delivery

- Authorization Assigned to Dispatch
- Driver Identification
- Onscreen Buyer Authorization
